

Company Statement
China National Food Safety Standards –
GB4806.6-2016: Plastic Resin for Food Contact use;
GB 9685-2016: Standard for the use of additives in Food contact Materials & Articles.

Supplier: Victrex Manufacturing Ltd

Product name:

VICTREX FG™ grades (Natural): 100; 200; 300.

VICTREX FG™ grades (Black): 101; 201; 301.

VICTREX FG™ grades (Glass Fibre filler): 120; 121; 220; 221.

VICTREX FG™ grades (PTFE filler): 325.

This document is to confirm that the Victrex products detailed above are listed within the China National Food Safety Standards, GB4806.6-2016 as allowable resins and GB 9685-2016 as allowable additives.

GB 4806.6-2016: VICTREX PEEK (CAS # 29658-26-2) - Allowable Plastic Resin No. 15

GB 9685-2016: Carbon Black (CAS # 1333-86-4) – Allowable Additive No. FCA0409*

GB 9685-2016: Glass Fibre (CAS # 65997-17-3) – Allowable Additive No. FCA0680

GB 9685-2016: PTFE (CAS # 9002-84-0) – Allowable Additive No. FCA0933

*The suppliers of the carbon black used in the manufacture of VICTREX PEEK black pigmented grades have provided documentation confirming that it meets the purity requirements of GB 9685-2016 Issue Oct 2016

Compliance with the specific migration limits of GB4806.6-2016 and GB 9685-2016 can only be demonstrated by tests carried out on the final article.
