This document is to confirm that Per and Polyfluoroalkyl substances (PFAS)<sup>2</sup> have not been intentionally added, used or generated as by-products in the manufacturing processes of the Victrex products detailed above and to the best of our knowledge at this time, have not been intentionally added, used or generated as by-products in the manufacturing processes of any included additives.

Independent 3<sup>rd</sup> party laboratory analysis on representative product samples has confirmed that the Perfluoroalkyl substances (PFAS) (as listed in Table 1 below) are not detectable down to 0.01 parts per million (ppm).
